Subject: Re: Dimock Samples

The work orders were split because of the number of samples and to ensure we are able to meet the final report TATs. I don't know about the sample issue but you can bring this up at one of the daily briefings.

Subject: Dimock Samples

Cindy,

You did tell me to inform you if I am having difficulty with the Dimock samples. I had a really hard time to trying to find all of the samples for WO1201015. It took me about 45 minutes to find these samples. This is unacceptable. You may need to have someone help me find these samples. I realize that there is no place to store this samples and Kmart is having difficulty finding room. I have another question for these samples. The first two weeks had one WO for these samples. Why have two work order number been created for this week. Please let me know when you have a chance.
